Software Engineer with 1 year of hands-on experience at Cisco AppDynamics, developing and enhancing enterprise applications using Angular, TypeScript, and JavaScript. Experienced in application development, debugging, component migration, automated testing with Playwright, and resolving software defects. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, DBMS, SQL, and Agile and cross-functional teams and AI-assisted software development.

WORK EXPERIENCE

Cisco AppDynamics - Bangalore

Software Engineer Aug 2025 – Aug 2026

- Developed and enhanced Angular-based features for AppDynamics, an enterprise application performance monitoring platform, contributing to maintainable and reliable application functionality.
- Contributed to Angular version upgrades by updating dependencies, replacing deprecated APIs, resolving compatibility issues, and fixing application regressions.
- Owned the migration of legacy UI components to newer versions and Material Design standards, improving application consistency and maintainability.
- Migrated legacy UI components from V0 to V1, resolving compatibility issues and ensuring a smooth transition across the application.
- Investigated, debugged, and resolved software defects by performing root-cause analysis and validating fixes, improving application stability and user experience.
- Improved Playwright automated test coverage for critical dashboard workflows, reducing repetitive manual testing during releases.
- Used Cursor, Codex, and MCP tools for code understanding, debugging, automated test creation, and faster development productivity, while reviewing and validating AI-generated code and tests before implementation.
- Collaborated with developers, QA, and designers to debug issues and improve overall frontend quality.
- Worked in an Agile development environment, collaborating with cross-functional teams through iterative development, testing, and defect resolution.
- Technologies: Angular, TypeScript, JavaScript, HTML, CSS, Playwright.

PROJECTS

Ecommerce Clone

- Developed a modern e-commerce platform inspired by Amazon and Flipkart. Designed and implemented Login, Products, and Product Details pages using React Router and reusable components. Secured user data with JWT authentication, REST API calls, and local storage.
- Technologies Used: React.js, JavaScript, CSS, Bootstrap, React Router, REST API, Local Storage, JWT Authentication & Authorization.

Blinkit Sales Analysis Dashboard

- Developed a Power BI dashboard to analyze Blinkit's sales performance, customer satisfaction, and inventory distribution. Implemented KPIs for total sales, average sales, and customer ratings.
- Designed interactive filters and visualized sales trends, product distribution, and outlet comparisons. Provided insights on consumer preferences and outlet profitability.
- Tools Used: Power BI, DAX, Data Modeling, Data Visualization.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering (2020 – 2024)
Sree Vidyanikethan Engineering College, Tirupati
CGPA: 9.32

SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, SQL
- **Software Engineering:** OOP, Data Structures & Algorithms, DBMS, REST APIs, JWT, Authentication & Authorization
- **Frameworks & Libraries:** Angular 21, React.js, Node.js, Bootstrap
- **Databases:** SQL
- **Testing:** Playwright, Automated Testing
- **Cloud & Developer Tools:** AWS, Git, GitHub, MCP, Cursor, Codex
- **Web Technologies:** HTML5, CSS3, Flexbox, Grid, Responsive Design

CERTIFICATIONS AND ACHIEVEMENTS

- Cisco Certified AI Technical Practitioner - Cisco | 2026
- Angular 21 - Udemy
- HTML, CSS, JavaScript, React, SQL - NxtWave
- Strong problem-solving skills with consistent practice in Data Structures & Algorithms.
- Experience working in Agile environments and cross-functional teams.
- Hands-on experience with large-scale UI migrations and design system updates.
